

January 26, 2022

To Our Residents, Family Members and Staff at the Legacy at Noel Manor --

We conducted facility wide testing on Tuesday, January 25, 2022. We received the results this morning. There are no new positive resident or staff cases.

We continue to follow all isolation and quarantining protocol until the appropriate quarantine period has passed for all previous positive individuals. We have implemented additional monitoring for residents and team members that may have come in contact with an affected person. We will also continue to track and monitor all residents and team members for any COVID related symptoms.

Due to the results of this test, resulting in two weeks of no new positive cases, we will be suspending weekly testing at this time.

As the spread of COVID-19 continues, and positivity rates in our community remain high, we will continue to adhere to our COVID-19 protocol and practices to mitigate the risk of spread. We will work closely with residents to assist them with properly wearing their masks and socially distancing when appropriate outside of their unit, practicing good hand hygiene, and avoiding people or places where they are not able to wear a mask and socially distance. The nature of this virus makes it imperative for all residents and staff to remain healthy because we reside and work in a communal environment.

We will continue to provide all updates by way of the health updates page on our website (www.parkvistaliving.org).

It is a privilege to serve your loved ones and provide them with a safe comfortable environment during this time. If you have questions, please reach out directly to your Executive/Community Director. I can also be reached at (563) 503 - 6001.

Sincerely,
