

June 6, 2022

To Our Residents, Family Members and Staff of The Legacy of Deforest (RCAC),

We have been alerted that a resident within the RCAC building has tested positive for COVID. We have continued to be in contact with our residents and team members at the building but wanted to follow up with a letter.

We have also been in contact with the local health department and are following all isolation and quarantining protocol provided as well as guidance from DHS and the CDC. We have implemented additional monitoring for residents and team members that may have come in contact with anyone affected. We will also continue to track and monitor all residents and team members for any COVID related symptoms.

At this time, we have the positive resident isolated and any close contacts have agreed to self-quarantine. Residents will continue to have the option to eat in the dining room, but we will be encouraging social distancing; in-room dining will be provided upon resident request. We also will only be holding social distanced activities to help to mitigate the risk of the virus spreading. We will be conducting weekly facility wide testing of all residents and staff until we have two weeks of negative results to ensure the safety of all residents and team members (weekly testing day and time will be communicated by the on-site team). We will also be encouraging residents to wear a mask when out of their apartments and in common areas.

We will not be restricting visitors but every visitor must be screened, perform hand hygiene, wear a mask, and follow all of our infection control procedures within the building.

We will work closely with residents to assist them with properly wearing their masks and socially distancing when outside of their unit, practicing good hand hygiene, and avoiding people or places where they are not able to wear a mask and socially distance. The nature of this virus makes it imperative for all residents and staff to remain healthy because we reside and work in a communal environment.

We will continue to provide all updates by way of the health updates page on our website (www.parkvistaliving.org).

It is a privilege to serve your loved ones and provide them with a safe comfortable environment during this time. If you have questions, please reach out directly to your Executive/Community Director. I can also be reached at (563) 503 - 6001.

Sincerely,

Julie Lonergan, Owner/CEO
