

December 16, 2021

To Our Residents, Family Members and Staff of The Legacy at Noel Manor,

We conducted our second round of facility wide testing on December 14, 2021. We received all negative results from the testing. We have already been in contact with our residents and team members at the building but wanted to follow up with a letter.

We have also been in contact with the local health department and are following all isolation and quarantining protocol provided as well as guidance from DHS and the CDC. We will also continue to track and monitor all residents and team members for any COVID related symptoms.

After receiving two weeks of negative results, we are able to discontinue our weekly testing.

We will work closely with residents to assist them with properly wearing their masks and socially distancing when appropriate outside of their unit, practicing good hand hygiene, and avoiding people or places where they are not able to wear a mask and socially distance. The nature of this virus makes it imperative for all residents and staff to remain healthy because we reside and work in a communal environment.

We will continue to provide all updates by way of the health updates page on our website (www.parkvistaliving.org).

It is a privilege to serve your loved ones and provide them with a safe comfortable environment during this time. If you have questions, please reach out directly to your Executive/Community Director. I can also be reached at (563) 503 - 6001.

Sincerely,

A handwritten signature in black ink, appearing to read 'Julie Lonergan', is positioned above the typed name.
