

December 3, 2021

To Our Residents, Family Members and Staff of The Legacy at Noel Manor,

Today we were notified that one of our team members tested positive for COVID-19. We have already been in contact with our residents and team members at the building but wanted to follow up with a letter.

We have also been in contact with the local health department and are following all isolation and quarantining protocol provided as well as guidance from DHS and the CDC. We have implemented additional monitoring for residents and team members that may have come in contact with an affected person. We will also continue to track and monitor all residents and team members for any COVID related symptoms.

We will be conducting facility wide testing on Monday December 6, 2021 and continue testing weekly until we have two weeks of negative results to ensure the safety of all residents and team members. We will also be encouraging residents to wear a mask when out of their apartments and in common areas.

We will work closely with residents to assist them with properly wearing their masks and socially distancing when outside of their unit, practicing good hand hygiene, and avoiding people or places where they are not able to wear a mask and socially distance. The nature of this virus makes it imperative for all residents and staff to remain healthy because we reside and work in a communal environment.

We will continue to provide all updates by way of the health updates page on our website (www.parkvistaliving.org).

It is a privilege to serve your loved ones and provide them with a safe comfortable environment during this time. If you have questions, please reach out directly to your Executive/Community Director. I can also be reached at (563) 503 - 6001.

Sincerely,

A handwritten signature in black ink, appearing to read 'Julie Lonergan', is written above the typed name.
