

November 24, 2021

To Our Residents, Family Members and Staff of Park Vista – Waupaca,

We are happy to report that we received all negative results from our building wide testing this week. This is our second week of negative results, and we are able to reinstate in-person visitation effective immediately.

We will continue to track and monitor residents and team members for any COVID related symptoms. We ask that visitors self-screen, wear a mask while in the building and do not congregate within our common areas regardless of vaccination status. Our staff will continue to mask appropriately while in the building.

While masks are not required for our residents; we will continue to encourage and work closely with residents to assist them with properly wearing their masks and socially distancing when outside of their unit, practicing good hand hygiene, and avoiding people or places where they are not able to wear a mask and socially distance where appropriate. The nature of this virus makes it imperative for all residents and staff to remain healthy because we reside and work in a communal environment.

We will continue to provide all updates by way of the health updates page on our website (www.parkvistaliving.org).

It is a privilege to serve your loved ones and provide them with a safe comfortable environment during this time. If you have questions, please reach out directly to your Executive/Community Director. I can also be reached at (563) 503 - 6001.

Sincerely,

A handwritten signature in dark ink, appearing to be 'Julie', written in a cursive style.
